# opinion survey

## Please fill in the numbers based on your preferences:

1 – 5 priority, 1 – highest priority, 5 – lowest priority

## Thank you for your valuable opinion!

By filling in this survey, the customer agrees with receiving occasional Voipac product updates.

If you share your business card, you can skip filling in your details below:

Name:

Company or University:

E-mail address:

Your contact details will not be shared with third parties.

### 1/ Please rate the criteria importance for choosing your long-term Computer On Module (COM) supplier:

- Transparent pricing
- Customized configurations
- Small minimum orders quantity (MOQ)
- Direct engineer support
- Open-source hardware

### 2/ Please rate which parameters affect selection of your next project COM:

- Size
- Performance
- Price
- Support
- Longevity

### 3/ Please rate which type of COM / SOM would be a great match for your next project:

- Bare-bone COM (very small factor, only essentials /CPU, eMMC, DDR/ required)
- Peripheral-rich COM (larger factor with features /e.g. Audio, Wi-Fi/ available for enhancement)
- SODIMM based COM (well-known format but limited in number of available signals)
- Solder-down COM (superior connectivity but challenging in dismantling and repairs)
- COM with availability of a specific periphery:

### 4/ Please rate which attributes do you find important in reducing time-to-market for your products:

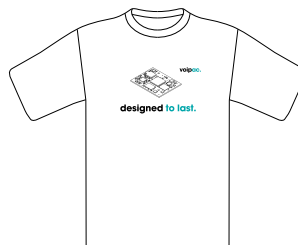

- Latest software updates
- Several BSPs (Yocto, Android, Debian, etc.)
- Multiple accessories ported
- Design Files available
- Extensive documentation

### 5/ Please rate which sources of information are essential in selecting COM for your design:

- Indexed search engines (e.g. Google)
- AI assisted engines (e.g. ChatGPT)
- Blogs / Adds
- Exhibitions
- Vendors and salespersons

## Thank you for providing your feedback! Do you have any additional remarks, suggestions, or insights?

## After completing this survey, ask the staff for your T-shirt. Please choose from these (EU) sizes:

- S
- M
- L
- XL
- XXL
