

Declaration of Conflict Minerals

Trencin, October 30, 2023

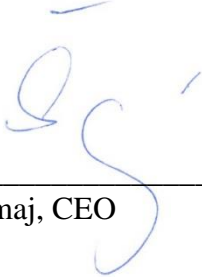

VOIPAC TECHNOLOGIES s.r.o. (Voipac) hereby declares, that it uses components from well-known manufacturers and trusted distributors in its products, and is committed to provide full transparency throughout its supply chain.

However, due to the complexity of today's supply chains, Voipac as a manufacturer of computers on module and baseboards has no influence on the origin of materials used by its suppliers and sub-suppliers, and is unable to identify each individual source of minerals used in Voipac products.

Voipac continuously work with its suppliers to improve supply chain transparency and take action as may be required.

To the current state of knowledge, Voipac products do not contain any conflict minerals, that would allow generating funds for non-governmental military groups by mining of certain minerals in the Democratic Republic of the Congo (DRC) and surrounding countries.

For and on behalf of
VOIPAC TECHNOLOGIES s.r.o.

Pavol Samaj, CEO
